GROWING GROWER'S MARKET COMMUNITY

*An occasional series helping build relationships with our
upstairs neighbors*

Each year, about 1,000 students in Lane County learn to
plant, tend and harvest fresh produce in school gardens.
The School Garden Project coordinates garden-based
education programs that serve eighteen elementary schools
from four school districts, along with providing material
resources, teacher and volunteer training, and help with the
design and construction of new gardens. Volunteers and
staff distribute thousands of healthy plant starts to schools
annually. **Why school gardens?** School gardens are a
powerful tool for promoting science education, engaging
students in healthy behaviors, and fostering a connection to
nature. A living laboratory for studying soil, bugs, and plant
growth, gardens also teach lessons in teamwork,
responsibility, and the results of careful nurture.
Incorporating green spaces into school grounds creates
habitat for wildlife, reduces the need for costly field trips,
and awakens a sense of curiosity and exploration among
students. **For more information** on School Garden Project
programs, visit us online at www.schoolgardenproject.org,
check out our latest [newsletter](#), or drop by our office at
Room 205 at the Grower's Market. Director John Moriarty
and Office Manager Lesley Pollard are in the office most
weekdays from 9-3. [541.284.1001](tel:541.284.1001) or
